• PROGRAM OVERVIEW

The Post Graduate Certification in Management (PGCM) is a specialized program designed to provide individuals with advanced skills and knowledge in management principles and practices. It typically covers core areas such as strategic management, organizational behavior, marketing, finance, operations, and leadership. PGCM programs are often shorter in duration compared to traditional postgraduate degrees like an MBA, making them ideal for professionals looking to enhance their managerial competencies in a shorter time frame. Graduates of PGCM programs are equipped with the necessary tools to excel in leadership roles across various industries. This Program is Suitable for those who are looking for an Immediate Job after the graduation and those who are work with low profile but want to grow in the career.
